Voter Status Changes

Voter Activity

A voter changes their status because of “Voter activity” or “Voter inactivity”.

“Active voter” refers to a registered voter whose registration status is active.

“Inactive voter” refers to a registered voter whose registration record has been placed on inactive status after procedures in section 98.065(4)(c), F.S., and Rule 1S-2.041 were followed.

Per Rule 1S-2.041(3)(e) a voter placed on inactive status cannot become active when a third-party address change has been received. An inactive voter can only be restored to active status upon the voter’s own activity as set forth in section 98.065(4)(c), F.S.

Removal from the rolls. If an inactive voter does not sign a petition, vote, request a vote-by-mail ballot or update his or her voter registration record by the second federal general election after the date he or she was placed on inactive status, the Supervisor shall remove the name of the inactive voter from the FVRS no later than December 31 in the same year of the second federal general election. Except as provided in subsection (5), no address list maintenance notices can be issued and a voter’s name cannot be removed during the 90-day period immediately preceding an election for federal office.

Anomalies

This section reports on anomalies found in the voter registrations.

Elector That Appears to Have Voted in an Election Before Being Registered

This query looks for voters who show having voted prior to their date of registration.

This situation should only occur when a voter for some reason becomes ineligible and subsequently gets re-registered. When a voter re-registers they get a new voter ID yet their old voting history stays intact. This then shows up as voting prematurely.

Another possibility is a data entry error or a bug in the election management software.

There were **13** voters where this happened, and this is how they casted their votes:
