Voter Status Changes

Voter Activity

A voter changes their status because of "Voter activity" or "Voter inactivity".

"Active voter" refers to a registered voter whose registration status is active.

"Inactive voter" refers to a registered voter whose registration record has been placed on inactive status after procedures in section 98.065(4)(c), F.S., and Rule 1S-2.041 were followed.

Per Rule 1S-2.041(3)(e) a voter placed on inactive status cannot become active when a third-party address change has been received. An inactive voter can only be restored to active status upon the voter's own activity as set forth in section 98.065(4)(c), F.S.

Removal from the rolls. If an inactive voter does not sign a petition, vote, request a vote-by-mail ballot or update his or her voter registration record by the second federal general election after the date he or she was

placed on inactive status, the Supervisor shall remove the name of the inactive voter from the FVRS no later than December 31 in the same year of the second federal general election. Except as provided in subsection (5), no address list maintenance notices can be issued and a voter's name cannot be removed during the 90-day period immediately preceding an election for federal office.

Anomalies

This section reports on anomalies found in the voter registrations.

Elector That Appears to Have Voted in an Election Before Being Registered

This query looks for voters who show having voted prior to their date of registration.

This situation should only occur when a voter for some reason becomes ineligible and subsequently gets re-registered. When a voter re-registers they get a new voter ID yet their old voting history stays intact. This then shows up as voting prematurely.

Another possibility is a data entry error or a bug in the election management software.

There were **1** voters where this happened, and this is how they casted their votes:

Voter ID	Registration Date	Election Date	Vote Cast
121594370	2019-06-25	2016-08-30	Voted

Voter ID	Registration Date	Election Date	Vote Cast
121594370	2019-06-25	2016-11-08	Voted Early

The rationale for these changes remains uncertain.

TABLE 6 VOTERS WHO HAD THEIR REGISTRATION DATES CHANGED

Potential Duplicate Voter Registrations

Florida Statute § 98.075(2) addresses the identification of duplicate voter registrations across counties in the state. Specifically, subsection (2)(a) provides: “The department shall identify those voters who are registered more than once or those applicants whose registration applications within the state would result in duplicate registrations. The most recent application shall be deemed an update to the voter registration record.”

For the purposes of this report, potential duplicate registrations are identified by matching records on last name, first name, and date of birth (case-insensitive). A match probability score is then calculated, taking into account factors such as middle name similarity, consistency of name suffixes, and differences in county of registration and voting history. Only potential matches meeting or exceeding the configured similarity threshold (80%) are included in the results presented below.

Note that Florida election officials have access to additional identifying information not available in public datasets, including the last four digits of a voter’s Social Security number, Florida driver’s license number, and/or state identification number. As a result, this analysis is necessarily limited in scope compared to the verification processes conducted by official election systems and personnel. While no method is infallible, the identified potential duplicates may merit further review by appropriate authorities to determine their status and accuracy.

There are 4 potential duplicate registration entries involving voters in Hendry County.

Each duplicate group receives a match probability based on:

Factor	Condition	Score
Base	Matched on Last + First + DOB	50
Middle name	Exact match	+25
Middle name	Initial-to-full (e.g. "J" vs "JAVIER")	+15
Middle name	Same initial, different full names (e.g. "ETHEL" vs "EDNA")	-10
Middle name	One or both blank	+5
Middle name	Different initials	-15
Suffix	Match or both blank	+5
Suffix	Conflict (e.g. Jr vs Sr)	-25
County	All different counties (likely a move)	+10
County	Same county appears (possible relatives)	-5
Co-voting	1 shared election	-15
Co-voting	2 shared elections	-25
Co-voting	3+ shared elections	-35

Typical ranges:

- 90%: Same name, matching middle, no suffix conflict, different counties, no co-voting
- 75%: Same name, matching middle, different counties, co-voted once
- 70%: Same name, blank/partial middle, no suffix conflict
